

How it all works

DJ Service How to book.

Because we work on a first received deposit, first receive our excellent service basis, we suggest that you pay your deposit asap to book and secure the date. We can change the times schedules and equipment requirements up to 5 days before the function and amend the balance as needed. The deposit books your date and the balance is paid upon arrival on the big day before our DJ starts to set up.

The Big Day

- Our DJ will arrive about 2 hours before the agreed set-up time and here you provide them with the proof of payment or give them the cash of the remaining balance.
(We do not accept cheques unfortunately).
 - He will start by setting up the equipment and lighting, and do a sound check.
 - We then need all additional songs/music that is on special request to add to our playlists.
 - Please ensure that we have a Dedicated Power supply and that it is preferably close to the DJ set-up.
 - Please ensure we have enough space to our availability so that we can set-up
 - The client must ensure that there is sufficient cover in case it might rain and also ensure that there will be sufficient light for our DJ to operate in.
 - The client must notify us of any special requests i.e. dress-code etc, or any other special requirements. Our staff is well groomed and are dressed in Mobile Bar dresscode.
 - Our DJ will notify you a half an hour before the last song is played and if he is required to stay longer, it will be at his own discretion and overtime rates will apply which must be paid to the DJ before extra time starts.
 - Our DJ will play until agreed time and then de-rig his equipment and pack-up & go.
- Last but not the least.....ENJOY THE PARTY**

Please e-mail us photo's of your event to place on our website.
